

CAPABILITIES STATEMENT

INTERNATIONAL LOGIC SYSTEMS, INC. (ILS) is a Small Business Administration (SBA) certified Small Business and Woman-Owned Small Business (WOSB) IT company based in Northern Virginia. For over 30 years, ILS has delivered state-of-the-art software and technology solutions that address complex federal program challenges and advance the federal government digital transformation.

Our mission is to form a strong partnership with each client, identify their unique business needs, and provide tailored, cutting-edge IT solutions that streamline operations, support growth, and achieve the organizational objectives. Leveraging proven expertise in software engineering—including systems design, application architecture, full-stack development, cloud integration, and cybersecurity—ILS plans, implements, and manages mission-critical systems for our clients. Guided by a proven engagement process and a robust portfolio of past performance, ILS delivers customized IT services that provide measurable, lasting value.
